

5 Reasons to #SupportVisiting

1 Visiting can support children's well-being.

2 Visiting supports transformation and successful reentry for parents who are incarcerated.

3 Child-friendly visiting offers benefits for those who visit, work, and live in prisons and jails.

4 Visiting can support and strengthen families.

5 Every child should have access to their parent.

New York Initiative for
Children of Incarcerated Parents

#WordsMatter

*“Regular people dont ‘visitate’ with each other. At holidays, you don’t have a visitation with your Grandma. You go visit her.”
–Child of an incarcerated parent*

Join us in using humanizing and child-friendly language when speaking about visiting an incarcerated loved one at a correctional facility. Families “visit.” Systems that separate families – criminal justice, child welfare, immigration – use the term “visitation.”

Please Say VISITS or VISITING and spread the word!
